Career Objective

MCA student with a foundation in Java, object-oriented programming, data structures, SQL, and database management. Experienced in developing academic applications involving application logic, database integration, and web technologies. Expanding backend development knowledge in Spring Boot, REST APIs, microservices, and unit testing. Seeking an entry-level software development role to apply technical skills, solve problems, and contribute to maintainable software solutions.

Educational Qualification

M. Kumarasamy College of Engineering, Karur — 2025 – 2027
Anna University, Chennai — CGPA: 8.5
Master of Computer Applications

St. Joseph's College, Tiruchirappalli — 2022 – 2025
Bharathidasan University, Trichy — CGPA: 6.9
Bachelor' s of Computer Science

Projects Done

AI-Integrated CV Management System
• Built an AI-powered recruitment assistant for resume parsing and candidate management.
• Automated candidate information extraction and storage using Python and Google Sheets.
• Integrated Generative AI concepts for intelligent resume processing workflows.

Spam Detection Web Application
• Developed a machine learning application to classify spam and legitimate messages.
• Performed preprocessing, feature engineering, and model training using Python.
• Improved understanding of real-world AI workflows and predictive analytics.

Online Book Selling Platform (BookHub)
• Designed and developed a full-stack web application for book discovery and purchases.
• Implemented user-friendly interfaces and database-driven functionalities.
• Integrated chatbot-based user assistance features

Technical Skills

- **Programming Languages:** Java, C
- **Backend:** Spring Boot, REST APIs, JDBC, Microservices (Basics)
- **Core Concepts:** OOP, Data Structures, Algorithms
- **Testing:** JUnit 5 (Learning)
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS-code

Certificate Courses

- **Programming in Java** | Hacker Rank
- **Fundamentals of Artificial Intelligence** | Feb 2025
- **Certified Web Development Course – GUVI**

Achievements

- Successfully completed multiple certification courses in Web Development, Python, Git, JavaScript, Angular, and AI technologies
- Built and developed academic and personal projects to strengthen practical knowledge in software and web development
- Active hackathon participant with experience in technical events and collaborative problem-solving activities

Extra-curricular Activities

- Runner, College-Level Chess Tournament
- Active Football Player, College Team
- Participated in inter-department and college sports activities, demonstrating teamwork and leadership skills

Hobbies

- Chess
- Reading Books
- Traveling
